

Emma Major

Senior Submissions Manager

My role within LMF Energy Services is Senior Submissions Manager and am currently working towards my Retrofit Assessor qualification.

I was welcomed into the LMF family over a month ago and what a great experience it's been so far! Everyone is willing to listen and help one another to provide the best service for our clients and has been nothing short of a breath of fresh air. Even after a month of being here, I genuinely can't see me being anywhere else.

Call me Miss Organization!

My role involves constantly being up to date with the rules and regulations of ECO in addition to overseeing all finished installations. Working closely with the directors ensuring all contracts have been met sufficiently. Ensuring my striving submissions team have all the information they require to complete the final documents for approval.

I hope to be here in many years to come and that's all down to the staff and management here.

Thank you for allowing me to be a part of this great journey LMF!
