

Daniel Jordan

Sales Manager

My role within the business is the Sales Manager, this involves me overseeing all contracts within the business from a sales perspective. On a typical day-to-day basis, I am working and managing the various sales departments which we have whilst also keeping in close liaison with the lead generators that and funders we work with on various ECO and LAD funded schemes.

I have worked at LMF for over 4 years and I can't quite see me working anywhere else as I feel like a real part of the furniture of LMF. The LMF office has a real family culture, with everyone always happy to help each other and regular staff nights out with each other. I honestly wouldn't want to work anywhere else.
