

Simon Kelly

Senior Operations Director (National)

Hi , I'm Simon Kelly and I am the Operations Director for the company.

I have been with LMF since the company was incorporated in 2016 and have enjoyed help growing the business over the years to now, where I believe we are one of the leading Energy Installers in the UK.

My role within the company is to oversee the running of all LMF installations on a daily basis .I am involved in purchasing,sales,monitoring revenue margins and overseeing employee productivity.

I work closely with our Business Manager and Commercial Manager to review operational budgets,profit and pipeline of works.

Relationships with our clients is a key role I undertake, ensuring we deliver to programme, attending site meetings and generally keeping clients informed throughout our contracts.

Operationally I have a fantastic team of Managers running Solar PV Instalations/Insulation measures/Air Source Heat Pump installations and under them we have our unbelievable installation teams that carry out all the above installations to the highest quality.

I liaise daily with my Health And Safety team to ensure we are working to the highest standards of Health and Safety and we pride ourselves with our safety record over the years.

Finally a little a about myself, you will hear me before you see me if you work in our office. I am probably one of the main jokers in the office which probably makes me the brunt of a lot of the laughs we have within our amazing LMF Team.
