

Adam Buchanan

Sales Executive

In my role of Sales Executive, day to day my duties include liaising with our lead generators, checking the leads they are giving us are compliant and suitable for the measures we provide. I'm also the first point of contact for many of our customers who are in need of ECO Measures from funding streams like LAD funding or ECO 4 for example, and make sure they have a stress free efficient process from start to finish by dealing with their queries and specific needs. I am in frequent contact with our many retrofit surveyors throughout the day ensuring they are on schedule and have all of the information they require.

I have been at LMF for about 1 year now and it's a business like no other. Everyone gets on so well, it makes me look forward to coming into work in the mornings. There are many staff wellness activities, from the LMF football team to the many staff nights out, I'm very glad to be apart of the LMF team.
