

Dan Edwards

Renewable Heating Contracts Manager

I am the Renewable Heating contracts manager here at LMF. I joined at the beginning of August to manage the design and installation of the Air Source Heat pumps. I am involved with the process from design to installation and then to handover so means I am the point of contact for customers and engineers.

Since joining LMF I have been made to feel welcome by everyone and yes, it's a busy office but we all want the same end goal. The directors are on the office floor and make everyone feel a valued member of the team and are never too busy to give support if needed. I'm looking forward to continuing on this journey with the LMF team!!
