

Emily Wilkinson

Contracts Manager

I started working at LMF in January of 2021 and instantly felt welcomed into the LMF family. A huge part of this is our team of directors who treat each member of staff like family. They will listen and help with anything they can whether it is work related or not. Our hard work never goes unnoticed either as they will take the team out whenever they can to show their appreciation for everything we do. There is always a good atmosphere in the LMF office which makes it an enjoyable place to work as the staff all get on in and out of the workplace.

As part of my role I help run contracts across various measures working closely with councils, customers and installers. Another vital part of my job is to check the compliance of all the potential installs to ensure everything goes as smoothly as possible.
