

James Wilson

Solar Contracts Manager

Having recently Joined the team September '22, I'm incredibly happy with making the move to LMF - A great group of people to work with and the best company to work for.

Day to day, I am managing the private solar contracts within the business; ensuring customers are happy and informed , checking system design and getting the installs done.

Always there to speak to customers needing any guidance with any aspect of their installation.

Will definitely be known as the best dancer in the company by 2023.
