

Raheese Tempest-Mitchell

Health and Safety Officer

My job role is ensuring that LMF is compliant with any HSE regulations and/or any health and safety requirements on various contracts.

This includes Accident reporting, RAMS, Staff inductions/training, audits, site inspections, basically picking up on every little thing that could cause an incident and annoying the install team, or as others call it being a "traffic warden".

I love working at LMF because of the culture, I work with people that I enjoy going for a pint with and at the end of the day what more could you want.
